#### ***PTRC Managers' Meeting***

The PTRC offers quarterly meetings and trainings for managers in the region. This quarter's training was about Active Assailants. It offered good information about being prepared and having a plan. The County's Safety Committee is working on departmental /

building Emergency Action Plans and hopes to have the final draft ready no later than December 31.

### *Vehicles*

The County maintains a vehicle fleet of 119 owned vehicles, 11 leased vehicles and 21 trailers. Every year, the vehicles are assessed for replacement based upon usage, mileage, condition of the vehicles and the need. When we sell surplus items, including vehicles, it is through an online process utilizing GovDeals. The County does not pay a fee to use GovDeals, but the highest bidder pays a premium fee on top of the bid for the item. Recently, we sold a 2000 Chevrolet S-10 through GovDeals. The County purchased this vehicle used in 2017 for \$2,800. It had a manual transmission and at the time it was purchased for Public Buildings and they had staff who could drive a manual transmission. The manual transmission limited the use of the vehicle, but it met a need when it was purchased. The employee who drove this vehicle resigned from the County in the spring and it was traded for another vehicle that had been replaced in another department so the manual transmission limitation would be eliminated. Again, a switch was made that met the need. The S-10 vehicle was sold on GovDeals in June for \$5,700, more than twice the amount the County paid for it. The highest bidder was from South Carolina and paid a \$712.50 buyer's premium in addition to the \$5,700 paid to the County.
