

Yadkin County Soil and Water Conservation District is seeking bids for removal and replacement of trash racks and manhole cover at Deep Creek Watershed Structure #16 in Yadkin County. Successful bidder will provide all labor and materials needed to completely remove, fabricate, replace, install and paint the existing trash rack on the structure as follows: Original manhole cover was constructed from concrete. The original cover will be removed and replaced with a minimum of 1/4 "steel manhole cover secured in at least 2 corners. Original as-built drawings are available and trash racks shall be constructed in the same manner as the original specs. For a copy of the original "As-Built" Drawings, or if you have any further questions, contact Jason Walker at [jwalker@yadkincountync.gov](mailto:jwalker@yadkincountync.gov). Successful bidder will be responsible for disposal of all materials that are removed from the structure. Successful bidder will follow all state, local, and federal regulations rules and policies. Bids will be accepted until September 10, 2024.
